# CARLOAD OF APPLES RELIEVES MARKET

Fine Lot of Red Varieties Are Shipped Here From Idaho.

THEY MAY BE THE LAST OF THE SEASON

Price Per Box Is the Highest That Has Thus Far Been Quoted.

That carload of apples from the Gem State was a welcome addition to the Salt ake market. It came in yesterday and is the only one in sight, according to some of the dealers. The crop this year was decidedly short, as well as below the standard as far as quality is concerned.

standard as far as quality is concerned. So Salt Lakers have been compelled to, not make their choice, but take what they could get in this line.

With the arrival of yesterday's shipment there was a rise in the price of apples, the wholesalers asking \$2 and \$2.25 a lox. At the retailers' purchasers will be asked at the rate of \$2.50 to \$3 a box. There are several varieties to be had, and the shipment is one of the choice ones received this season.

Chickens were in big demand Saturday, with but a small supply to meet it. Now that the laying season has opened owners of chickens are not anxious to dispose of them as they were a while back and there will doubtless be more or less scarcity in this particular food product until the young spring fries are ready.

California cabbage, which has been selling at \$3\$ cents a pound, will go still higher, and merchants will ask \$3\$ cents a pound whoresale for a shipment that is scheduled to arrive on Monday. This will make the retail price of the vegetable at least 8 cents a pound. Rather high, isn't ii.

table at least 6 cents a pound. Rather high, isn't it?

Another fine lot of steelhead salmon came to town Saturday, along with a large and varied assortment of other fish. There has been such a scarcity of the sea food of late that the people have seemed to cultivate an increased taste for it—at least the orders for the past few days have been decidedly above the average on the fish market.

# FALL WHEAT DAMAGE MAKES MARKET ACTIVE Horts and Commission Houses Swell the Volume of Sales. ALL WHICH DAMAGE OUAKER MAKES MARKET ACTIVE OUAKER MAID RYE MAID RYE

Shorts and Commission Houses

CHICAGO, Feb. 3.-The first specific reports of damage to fall-sown wheat which tave been received here caused unusual activity and strength in the wheat market today. At the close wheat for May lelivery was up be. Corn was up taking. Oats showed a gain of \$c. Provisions were 75c to 325c higher.

Strength in the wheat market developed oward the end of the first hour. At the

Strength in the wheat market developed toward the end of the first hour. At the immediate opening the market was somewhat weak and initial quotations on May wore a shade to 1624 lower at 242c to 502c. Factors contributing the easier tone were liberal slipments from Australia and mild weather in the winter wheat belt of the United States. As the session passed trading increased in volume, shorts, commission houses and cash interests buying freely. The selling was chiefly by longs.

Hesponding to the increased demand, prices advanced steadily. Later in the day a report was received from Kansas City to the effect that the crop in Burton county. Kan, had been damaged 20 per cent by the unseasonable weather in the last month. Other reports of damage came from Missouri and southern lillinois. An official forecast of much colder weather tomorrow and a report of a blizzard in North Dakota which might temporarily check the movement of grain caused increased anxlety among the shorts. The market closed strong, with May 5c higher at \$55,05512c.

Despite heavy preliminary receipts the corn market was firm for the greater part of the day in sympathy with wheat. May closed by 1605 at 444c.

Oats held strong. May closed by up at 354,03075c.

Trading in provisions was exceedingly

35,030%c Trading in provisions was exceedingly active and the market showed unusual strength. At the close May pork was up

NEW YORK, Feb. 3.—The Financier

NEW YORK, Feb. 3.—The Financier says.

'The official statement of the New York Associated Banks showed, as the most notable feature, a marked discrepancy between the cash loss as reported by the banks and that which was estimated upon the basis of the traceable movements of money during the week. The most reasonable explanation of this difference is that the statement of the previous week did not fully reflect the movement of cash, the estimates showing a gain of five and a half millions.

'This difference of two millions admitting that the unreported balance of cash gain in the previous week was brought over into last week, would not, however, fully account for the discrepancy between the official and the estimated change last week such difference being about five millions. The cash loss as reported by the bank statement was \$11.75.

ported by the bank statement was \$1.129,600.

The general deposits increased \$14,-20,500, so that the required reserve was augmented by \$15,72,650. The sum of the two items, of cash lose and increased reserve requirements, is \$1,702,225, representing the decrease in surplus to be \$11,127,435. Computed upon the basis of deposits iess those of \$15,555,000 public funds, the surplus is \$13,256,375. The londs were expanded by \$16,251,800, though there was most likely heavy reductions in this item during the week, as the result of the liquidation in the stock market, it may be noted that deposits exceeded loans by \$1,038,000 which in the previous week such excess was \$5,999,380.

#### Western Loan's Excellent Showing.

Western Loan's Excellent Showing.

Stockholders and the public generally will be interested in ascertaining the exact condition of the Western Loan & Savings company of this city. F. H. Ray assistant State examiner for Montana, has, after a thorough examination of the company's books, pronounced it to be in most excellent condition. His report, given to P. W. Madsen, president of the institution is as follows:

To Whom it May Concern:

Helena, Mont, Jan. 12, 1868—in December, 196, a careful examination of the Western Loan & Savings company of Salt Lake City. Utah, was made by myself and assistant, in which we ascertained by actual inspection, the assets, liabilities and management. The company was found solvent, in excellent fluancial condition, and the business is well managed for the best interests of its stockholders.

(Signed.)

Assi. State Examiner of Montana.

As a further evidence of the healthful condition of the company the following comparison of the business ending December 31 1893 and 1895, will prove interesting reading:
